Saint Joseph Class – Summer Term History Homework Project

Dear Parents and Carers,

As part of our history learning later this term, Year One will be diving into the exciting world of pirates! We will be finding out all about the life of the infamous pirate Blackbeard, and to support our classroom learning, we are inviting the children to take part in a creative homework project.

This is a wonderful opportunity for your child to explore any aspect of pirate life that captures their interest. The project can be completed at home, with the support of the whole family, and can take any creative form your child chooses. Here are a few ideas to inspire you:

- Research and present information about a different real-life pirate – perhaps even a famous female pirate!
- Create a map or model of the Caribbean Sea and label pirate hotspots.
- Build a pirate ship model using junk materials.
- Design and label a pirate's treasure chest or costume.
- Make a short booklet or poster about pirate rules, flags, or daily life.

Projects should be no larger than A3 paper size or a standard shoebox, as we will be displaying them in the classroom. We kindly ask that each project includes at least a small piece of independent writing, such as a description, a few labelled facts, or a sentence about what your child has made or discovered.

Please return completed projects to school by Tuesday 5th May. We can't wait to see the children's creativity shine through and to celebrate their work together!

Thank you for your support and enthusiasm.

Warm regards,

The Saint Joseph Class Team
